

ILSFA Low-Income Community Solar Subscriber Directory

Updated: 2/24/2022

The Illinois Solar for All (ILSFA) Low-Income Community Solar (LICS) program allows income-eligible participants to benefit from solar energy without installing panels on their own properties by subscribing to a community solar project.

Owners or renters can subscribe to these projects if they meet the income requirement of [80% or less of Area Median Income](#) and if they reside in the project's utility territory. Subscribing to an ILSFA LICS project means guaranteed savings on electricity costs.

Subscribers can begin to sign up as LICS projects are built. The directory below lists LICS projects that are either currently accepting subscribers or will begin accepting subscribers soon. The projects are grouped by their utility territory and list the targeted subscriber base as well as whether eligible subscribers outside of their targeted subscriber base will be accepted. The information in this directory will be updated regularly.

If you are interested in subscribing, use the contact information listed below to learn more about rates and savings.

LICS Projects: Ameren Territory

2300 E. Barr Avenue, Urbana, IL, 61802

- **Currently accepting subscribers:** Yes
- **Targeted Subscriber Base:** Income-eligible residents in Ameren utility territory

- **Project ID:** P-2838-PY3

Other Solar Opportunities: ILSFA focuses on income-eligible households with enhanced benefits and consumer protections. Households that do not qualify for ILSFA can subscribe to community solar projects or receive incentives for a residential solar system through another solar incentive program, Illinois Shines. For more information about Illinois Shines, visit IllinoisShines.com/.
