

Project Waiver Evaluation Rubric

UPDATED MAY 2024

The evaluation rubric will determine the validity and sufficiency of an Approved Vendor's "Good Faith Efforts" to find Eligible Job Trainees¹ for its project and indicate whether a submitted waiver application for Illinois Solar for All (ILSFA) Job Training Requirements on that specific project is approved or denied. Judgments will be made based on the evidentiary narrative and supportive documents submitted by the Approved Vendor, although the Program Administrator may request more information in the case of incomplete submissions or to investigate narratives further.

The Approved Vendor must provide the documentation listed on page 5 of the ILSFA Project Waiver for Job Training Requirements document. In addition, the rubric below will consider both general practices utilized, and specific actions taken by the Approved Vendor and/or their subcontractors to hire Eligible Job Trainees for this project.

The ILSFA Program Administrator will provide a written response to the Approved Vendor with the determination as well as recommended measures to be considered in future efforts to hire Eligible Job Trainees. For a given Approved Vendor, all waiver application evaluations will be documented and referenced during future waiver application evaluations.

The waiver will be approved if the evidence submitted qualifies based on one of the following conditions:

1. A good faith effort to hire and employ Eligible Job Trainees or to utilize subcontractors that hire and employ Eligible Job Trainees has been

demonstrated, although the Approved Vendor was not successful in utilizing Eligible Job Trainees for this project.

2. Extenuating circumstances occurred that made it too difficult to meet the job training requirements for this project.

Evaluation

Instructions: Upon review of the Approved Vendor's waiver submission, provide the final evaluation and an explanation for the determination that was reached. The Approved Vendor will need to be informed of this determination, be instructed on any requests for supplemental information, and/or be advised on where the efforts were insufficient and

how to mitigate the need for future waiver submittals. The rubric below is meant to support the evaluator in considering and summarizing various details in line with the waiver questions outlined in the Approved Vendor Manual.

The evaluator will make the determination of waiver approval in coordination with the ILSFA Program Manager and assigned Approved Vendor Manager. For all waiver determinations, a summary of the decision will be shared with the Approved Vendor.
